## FOREWORD BY THE PRESIDENT

Since its establishment in 1998, Kuala Lumpur Infrastructure University College (KLIUC) has worked consistently very hard to build a team of lecturers who are experts in their fields of interest. These experts, ranging from engineers to social scientists have been significantly active in providing research and consultancy services to a wide range of private companies, government agencies and educational/research institutions.

The “Directory of Expertise” is one of KLIUC’s efforts in documenting the enormous array of our expertise, in Science and Technology and in the Social Science. This is a way of extending our hands to industries in order to share our expertise with the world and to form strategic alliances that can be of mutual benefit to all. The Directory provides a listing of our academics and their areas of expertise and subsequently, their research interests can be used as guides for those requiring services from these experts according to the schools in KLIUC. This “Directory of Expertise” will serve as a link between the academics and others who share common visions of achieving global success.

**Prof. Dr. Zulkifli bin Abd. Hamid**  
**President of KLIUC**

#### FOREWORD BY THE VICE-PRESIDENT

First and foremost, I would like to take this opportunity to congratulate The Research Management Centre (RMC) KLIUC, on successfully publishing the Directory of Expertise 2011.

The Research Management Centre (RMC) coordinates and supports the academic community's intellectual services that facilitate their research, development, commercialization and intellectual property protection. Activities undertaken by the centre covers both basic and applied research in Science, Technology and Social Sciences.

The 'Directory of Expertise' contains crucial information such as the qualification of researchers, their respective fields of expertise and also contacts information. With the publication of this directory, it is hoped that the information will be used extensively as a reference tool and to showcase the wide range of research expertise available within KLIUC. In ensuring the success of our Nation, KLIUC is every ready to share our knowledge.

**Assoc. Prof. Christantine Della**  
**Vice-President (Academic)**

**FOREWORD BY THE DIRECTOR**  
(RESEARCH MANAGEMENT CENTRE)

I would like to take this opportunity to give praise to ALLAH, the Almighty. It is with His grace, the Research Management Centre (RMC) sees the completion of the KLIUC "Directory of Expertise" 2011.

I would also like to express my sincere and deepest gratitude to all who have given their full support and cooperation in terms of information contribution, diligence and perseverance entailing the centre to successfully compile a directory of expertise in KLIUC.

With the wide range of expertise in many different areas of knowledge, it is hoped that the Directory will be useful as a resource for identifying areas of research interests and expertise to those outside KLIUC. It is also hoped that this Directory will be useful for the identification of expertise in consultancy and advisory projects.

It is my utmost hope that the KLIUC "Directory of Expertise" would be used to its fullest extent and would contribute to the community at large to tap KLIUC's resources for universal benefits.

**Prof. Dr. Roslan bin Zainal Abidin**  
**Director, Research Management Centre**

## PROFILE OF THE RESEARCH MANAGEMENT CENTRE (RMC)

After being upgraded to a university college, Kuala Lumpur Infrastructure University College (KLIUC) set up the Research and Consultancy Unit (RCU) to inculcate the research culture and oversee research activities. To further expand the activities of RCU, the IKRAM Centre of Research & Development (ICRD) was formed on 1<sup>st</sup> January 2010 to integrate all research activities in the Kumpulan IKRAM group. As an excellence centre, ICRD focused its research activities on the overall needs of the company. However, KLIUC realized that it needed a more concentrated effort on carrying out high-impact academic researches. Thus, the Research Management Centre (RMC) was established on 1<sup>st</sup> June 2010, to replace ICRD. The role of RMC is to strengthen the research management system of KLIUC by intensifying research and consultancy efforts. RMC aspires to be recognized as one of the leading centres for the production of new knowledge in the soft and hard infrastructure niche in Malaysia and eventually establish several excellence centres.

### VISION

- To inculcate an excellent research culture in supporting research activities.

### MISSION

- To provide a unique and substantial research support in encouraging life long and superb research experience.

### OBJECTIVES

- To provide a one-stop management centre in coordinating all matters related to research activities.
- To strengthen commitment towards enhancing new innovation, invention, design, process and product.

### FUNCTIONS

- To manage, coordinate and provide necessary services for successful research projects.
- To disseminate information and provide training on research.
- To identify niche areas and new exploration.
- To promote quality research of world class standards.
- To promote inter disciplinary and inter school research proposals and activities.
- To promote research collaboration with government and private agencies.
- To merchandise research products.
- To liaise and collaborate with internal and external research funding agencies.

The areas of expertise and interests of RMC researchers span across several fields:

- Geotechnical Engineering
- Highway & Transportation Engineering
- Civil & Structural Engineering
- Information Technology
- Business, Management and Accounting
- Communication and Language
- Architecture and Built Environment
- Applied Sciences

At the same time, RMC researchers are committed to engage in collaborative research focused on cross-disciplinary themes with other local and international institutions of higher learning. With solid leadership, experienced and dedicated staff, state-of-the-art facilities and excellent quality system, RMC is capable of providing professional and expert services in the above mentioned disciplines.

### MANAGEMENT STRUCTURE OF KUALA LUMPUR INFRASTRUCTURE UNIVERSITY COLLEGE 2011

SETI – School of Engineering & Technology Infrastructure  
 SABE – School of Architecture and Built Environment  
 SASF – School of Applied Science & Foundation Studies  
 RMC – Research Management Centre  
 AFM – Academic Facilities Management

SOBI – School of Business Infrastructure  
 SITI – School of Information Technology Infrastructure  
 SCLS – School of Communication and Language Studies  
 AILU – Academic & Industry Linkages Unit
