

IUKL

DIRECTORY OF EXPERTISE 2018

EXPERTISE

IUKL . Engineering Your Future

The First Infrastructure University in Malaysia

The strength of Infrastructure University Kuala Lumpur today stems from its rich history. For more than 20 years, IUKL has been providing quality education and excellent professional services in various fields of infrastructure.

IUKL being the foremost infrastructure university in Malaysia aspires to produce technopreneurs and skilled manpower with outstanding communication, technological and managerial skills.

The integration of both hard and soft aspects of infrastructure is emphasised in all the programmes that IUKL offers. Enhanced with up-to-date academic facilities, and tutored by highly qualified lecturers among whom are industry practitioners, IUKL strives to ensure high quality education in the areas of Engineering, Business, Communication, Language Studies, Architecture, Biotechnology, Information Technology and many more.

FOREWORD BY THE PRESIDENT & VICE CHANCELLOR

Bismillahirrahmanirrahim Assalamualaikum wbt

It is my great pleasure to introduce the latest IUKL directory of expertise 2018. As the first infrastructure university in Malaysia, IUKL is a hub of expertise within all infrastructure-related fields covering engineering, architecture, business management, social science and applied sciences. Of the over 200 full-time faculty members, almost half have doctoral or professional degrees in their respective expert areas. IUKL's highly qualified academics can and will contribute significantly to any research project partnership and consultancies, by offering a vast amount of knowledge through their key expertise. This directory provides the direct contacts of all the academics from across IUKL's six faculties, with a complete listing of each individual's expertise and research interest for easy referencing.

As a technology-centric university, IUKL is the leader in both hard and soft infrastructure innovations that have won and continue to win many accolades at the national and international level. These real world solutions are the results of a wide-range of research performed at the university that is also translated to both teaching and learning excellence at IUKL. Here at IUKL, we are committed to deliver hands-on experiential learning through experts that helps to define the profession in the relevant industry. Explore our new directory and feel free to contact our experts for project collaborations, advisories, research, consultancies or for any other specific requests.

Thank you.

Prof. Dr. Roslan Zainal Abidin

TABLE OF CONTENTS

	Page Number
FOREWORD BY THE PRESIDENT & VICE-CHANCELLOR	1
TABLE OF CONTENTS	2
FACULTY OF ENGINEERING & TECHNOLOGY INFRASTRUCTURE	3
FACULTY OF APPLIED SCIENCE AND FOUNDATION STUDIES	21
FACULTY OF CREATIVE MEDIA AND INNOVATIVE TECHNOLOGY	33
FACULTY OF ARTS, COMMUNICATION AND EDUCATION	41
FACULTY OF BUSINESS AND ACCOUNTING	51
FACULTY OF ARCHITECTURE AND BUILT ENVIRONMENT	61

Faculty of Engineering & Technology Infrastructure

The Faculty of Engineering and Technology Infrastructure was among the first faculties to be established at IUKL. The strong industry linkages and rich history of the university enables us to groom future engineers to be successful technopreneurs.

The faculty staff members are experts in various fields of Engineering: Civil Engineering, Electrical and Electronics Engineering, Mechanical Engineering and Geomatic Engineering. Other than engineering, the faculty also consists of experts in the technological field of automotive, electrometrical and construction management.

Bachelor of Technology (Hons) in Applied Automotive (IUKL, 2012)

Expertise: Automotive Technology

Faculty of **Applied Science & Foundation Studies**

The Faculty of Applied Science & Foundation Studies comprises the primary disciplines of Mathematics, Chemistry, Physics and Biology which support specialized interdisciplinary fields of teaching, research and industry engagement in engineering, biotechnology, agriculture science and sports management.

The faculty's academicians are experts in various fields such as pure sciences, applied sciences and social sciences.

DIRECTORY OF EXPERTISE (As of April 2018)
